Vancouver, BC

EDUCATION

Bachelor of Science – Computer Science

September 2021 – May 2025

University of British Columbia

Kelowna, BC

- **Grade** – 86% (High Distinction)
- **Awards** – Dean's List (2021, 2023, 2024), Deputy Vice-Chancellor Scholarship (2022)
- **Relevant Coursework** – Software Development, Data Analysis, Machine/Deep Learning, LLMs & AI, Analysis of Algorithms, Computer Networks, Network Science, Agile/Scrum Project Management, Financial Statements & Business Law.

RELEVANT EXPERIENCE

Lead Software Engineer – Remote

Oct 2025 – Present

Arts Factory Society

Vancouver, BC

- Developed Carbon Accounting Software using React, Vite, and Tailwind CSS, building dynamic form system with 18 geometric configurations and engineering modular UI components for crowdsourced material library and component builder features.
- Engineered scalable data architecture with Firebase Firestore implementing 5 tier hierarchy and state management, designing automated calculation engine processing volume to carbon conversions that reduced manual estimation time by 90%.
- Integrated third party ICE Database APIs with RESTful Firebase services to enable real time carbon footprint calculations, ensuring data accuracy across complex multi tier relationships.

AI Engineer – Remote

Aug 2025 – Present

Vosyn

Toronto, ON

- Collaborated with engineering team to deploy production ready LLM on Google Cloud Platform using vLLM and Docker, architecting scalable AI infrastructure handling concurrent requests while ensuring enterprise data privacy and control.
- Built AI powered React (TypeScript) chatbot with distributed REST API integration, owning end to end development from design through production deployment.
- Designed and implemented automated document generation system using Microsoft Power Automate, integrating Microsoft Forms, Excel, and Word, reducing HR letter generation time from 15 minutes to under 2 minutes per request.

Co-Founder & CTO

Aug 2024 – Present

NxtMeals ([Link](#))

Vancouver, BC

- Conducted market research surveying 100+ students and running 3 focus groups to brainstorm top grocery pain points, informing a targeted go to market strategy for a \$200M addressable market.
- Designed and launched an interactive website prototype using Wix, driving 50+ beta signups in 3 weeks and validating the 2% cashback incentive model.
- Collaborating a pilot loyalty card program remotely, partnering with local grocers to distribute 50 unique cards and test commission based revenue.

Software Engineer Intern

May 2024 – Aug 2024

Microsoft Cloud Solution Partner, Getmax.ae

Dubai, UAE

- Utilized Microsoft Azure to develop projects using Microsoft Dynamics 365, integrating CRM and ERP systems to streamline operations.
- Leveraged Azure DevOps for project tracking, source control, and CI/CD pipelines for two web and API projects, cutting deployment time and boosting cross team delivery velocity.
- Assisted in developing Azure Security Center policies, role based access controls, and threat protection measures, ensuring compliance with Microsoft Azure Security Technologies and reducing security incidents by 15%.

Data Analyst Intern

May 2022 – Aug 2022

Tridel Technologies

Dubai, UAE

- Engineered Python data pipelines (Pandas, NumPy) to process 20k+ environmental sensor records, uncovering environmental trends for monitoring projects.
- Developed ETL workflows to clean and standardize data from monitoring stations, reducing inconsistencies and cutting preprocessing time by 15%.
- Designed 2 interactive Tableau dashboards that visualized green ecosystem metrics for 4+ stakeholders, accelerating decision cycles.

ADDITIONAL PROFESSIONAL EXPERIENCE

Sandwich Artist

Jan 2023 – Dec 2023

Subway (UBC Campus)

Kelowna, BC

- Served an average of 40+ customers daily in a high traffic outlet.
- Processed \$500+ in daily sales transactions, reconciling cash and digital payments.
- Maintained rigorous food safety and sanitation standards in compliance with health and safety.

Sales Associate

Sept 2022 – Dec 2022

GNC Supplements

Kelowna, BC

- Advised 50+ customers weekly on health supplements and nutrition.
- Managed inventory by conducting cycle counts and coordinating with vendors.
- Executed in store promotions and merchandising strategies to increase foot traffic.

SKILLS

- **Programming Languages:** Java, JavaScript, Python, C#, HTML, CSS, R, SQL.
- **Frameworks/Libraries:** React, Node.js, Express, Vite, Bootstrap, Tailwind CSS, Playwright, Jest, React Native, Pandas, NumPy, Matplotlib, Seaborn, PyTorch, TensorFlow.
- **Databases:** MySQL, MongoDB, NoSQL.
- **Tools:** Power BI, VS Code, GitHub, Discord, Slack, Notion, Android Studio, Docker, Tableau, RStudio, Unity.
- **Cloud Platforms:** Cloudflare, Microsoft Azure, Azure DevOps, Microsoft 365, Power Automate, Wix, N8N, Google Cloud Platform, Firebase, Firestore.
- **Soft Skills:** Adaptable, Collaborative, Time Management, Detail Oriented, Curious, Willing to Learn, Open to Feedback.
